Add a touch of luxury to your desk: Anello rose gold

Special occasions deserve a personal note – handwritten, of course. When writing Christmas cards to our friends and family, we gladly take a little more time to choose not only our words with care, but our writing instrument as well. The elegant Anello rose gold edition will become your new favourite. The fountain pen, ballpoint pen, twist ballpoint pen and twist pencil all feature black precious resin segments separated by fine rose gold rings, which is what gives this series its name: “anello” is Italian for “ring”. The cap, end piece and spring-loaded clip shimmer in 18-carat rose gold plating, creating a striking contrast with the deep black barrel. The transitions between the dark, shiny precious resin segments and the fine precious metal rings are barely noticeable – a perfect tactile combination that allows the pens to rest comfortably in the hand.

The sophisticated fountain pen, which is equipped with an 18-carat, hand-inscribed bicolour gold nib, provides a unique writing experience. It is available in six nib sizes and with a practical cartridge converter system. Thanks to its exquisitely smooth-running precision tip, the rollerball pen is a comfortable alternative for everyday writing. The propelling ballpoint pen with a large-capacity cartridge and the propelling pencil with a replaceable eraser under the end cap have become constant companions for jotting down spontaneous notes. Every model is delivered in a gift case made from dark brown wood.
